DETAILED ACTION

Current Status

1. This action is responsive to Applicants' amendment of 27 February 2006.
2. Receipt and entry of Applicants' amendment is acknowledged.
3. Claims 1-28 and 37-41 are pending in the application.

Correction

The telephone conversation dated 1/26/05 was conducted with Anthony Bisulca and not with Douglas Mueller as stated in the Office Action of 8/11/05.

Allowed Claims

Claims 1-28 and 37-41 are allowable over the prior art of record.

Reason For Allowance

The following is an examiner's statement of reasons for allowance: claims 1-28 and 37-41 are allowable. The claimed phosphinic salt and/or diphosphinic salt, or their polymers were found to be unobvious over the prior art of record; wherein the phosphinic salt and/or diphosphinic salt, or their polymers, have been encapsulated with a surface layer composed of a synthetic resin or a wax.

A search of the prior art failed to uncover any reference that teaches or motivates one of ordinary skill to disclose the presently claimed phosphinic salt, diphosphinic salt or their polymers that have been encapsulated with a surface layer composed of a synthetic resin or a wax as claim by applicants.

All claims (1-28 and 37-41) are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".
